Preethi
PRONTO

Dear Customer,

Congratulations on your purchase of Preethi's elegant Stainless Steel Electric Kettle!

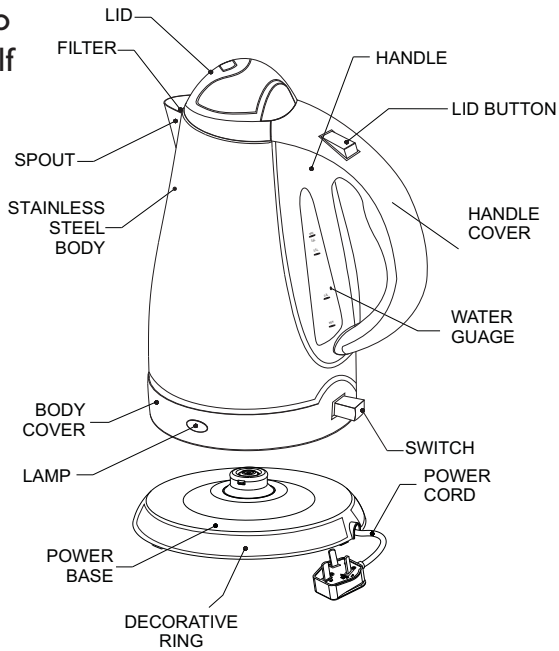

We'd like to thank you for the excellent choice you've made. You can be confident of Preethi's unsurpassed quality and service to give you lifetime satisfaction.

Do spare time to go through the features and instructions of your Kettle to get the most out of your purchase.

TECHNICAL SPECIFICATIONS

Model : Preethi Pronto SS Kettle
Capacity : 0.8 litres
Rating : 1100 W/ 230V / 50 Hz
Current : 4.5 Amps / 230V

Take a moment to familiarize yourself with your new Preethi Kettle.

IMPORTANT SAFETY INSTRUCTIONS

1. Ensure you remove all packing material from within the Kettle.
2. This Kettle is designed only for boiling water.
3. Place the Kettle on a stable, level and heat resistant surface, away from hot objects or naked flame.
4. Never fill the Kettle while it is connected to a Power Source.
5. Switch off the power to Kettle before pouring or moving.
6. Do not fill water below the minimum or above the maximum mark.
7. Plug in the kettle into an earthed 230 V, 50 Hz socket.
8. Make sure the Lid is closed before the Kettle is switched on.
9. Extreme caution must be taken whilst moving the Kettle containing hot water.
10. Never allow children to operate the Kettle.
11. Do not dis-assemble the Element or Parts to repair. Contact the nearest Preethi Authorised Service Centre for service.

FEATURES

Auto Cut-Off

The power will be shut off and the light goes off after the water starts boiling.

Overheat Protector

This feature is designed to provide 'dry-boil' protection to the Kettle when the water content in the Kettle is completely drained off. The power will shut off and the light goes off so as to protect the Kettle. Switch off the power supply to the Kettle immediately under such conditions.

Power Base

The Power Base can be used to store the power cord when the Kettle is not in use. The Power Base has a 360° placement flexibility for the Kettle.

Filter

The Filter is useful for filtration of sediments in water. The Filter can be easily detached by simply pulling it out from the slot. To attach, just insert the Filter into the support slot.

Water Gauge

The transparent water gauge fitted to the Stainless Steel Body, indicates the quantity of water in the Kettle.

POWER BASE

EASY FILL

WATER GAUGE

HINGED LID

Hot Water

1. Open the Lid by pulling the Lid Knob. Pour the required quantity of water into the Kettle. (Maximum capacity: 0.8 litres). Close the Lid.
2. Place the Kettle on the Power Base such that the spout of the Kettle is facing away from you.
3. Switch on the power supply. Press the Switch to 'I' position and the lamp will be illuminated. The water starts to heat up. **DO NOT OPEN THE LID WHEN THE WATER IS BOILING**
4. When water attains the boiling point, power will be cut off automatically and the Switch will be back to '0' position. The lamp will go off at this point.
5. Lift the Kettle from the Power Base and pour the water.
6. The boiling process can be terminated any time by lifting the Kettle from the Power Base or by pressing the Switch to '0' position.

Cleaning and Maintenance

Switch 'OFF' the Kettle after use and remove plug from the socket.

Wipe the inside of the Kettle with a soft, moist cloth.

Never use metal polish, abrasive cleaners or coarse scouring agents for cleaning.

If necessary, the Kettle can be de-scaled with a few drops of a mixture of white vinegar and water.

WARRANTY CARD

Terms and Conditions of warranty and Service Policy

01. Retain the original sale bill and the Warranty Card, which should be shown to our Service Personnel for scrutiny while sending your Electric Kettle for service to our Customer Care Centre.
02. The **One Year Warranty** does not cover damage to the Appliance due to mishandling, negligence, breakage, etc.
03. **All repairs within the One year Warranty period (arising from manufacturing defects) will be done 'Free of Charge'. Our Customer Care Centres will not charge you for Components or Labour.**
04. **Free service and replacement under Warranty does not affect the expiry date of the Warranty.**
05. For repairs after the expiry of the Warranty period our Customer Care Centre will levy a nominal charge on components replaced. There is no labour charge and service is free.
06. **The Warranty is valid only in the country of Purchase.**
07. **Defective components, which are exchanged both under 'Chargeable' and 'Free of Charge' basis, become the property of the Company.**
08. You are entitled to a free check up every 6 months with any of our Customer Care Centres listed in Page nos. 11 & 12 of this Manual.
09. **If the Electric Kettle is tampered with or opened by any unauthorised person, the Warranty is void.**
10. **Warranty is void if the Electric Kettle is used for any purpose other than domestic use.**
